Oasis®

# SOLAR ecologic | 4000

Large Canteen • Drying Room • Two Toilets

## How will this Oasis® instant start welfare unit benefit **your** site?

### Your health & safety

- Hot and cold temperature controlled water
- 24/7 drying room facilities
- Mainly silent-running welfare

### Your wellbeing

- Pleasant work environment
- Intelligent telemetry system with remote monitoring and reporting for trouble-free welfare operation

### Your carbon footprint

- Impressive carbon savings with effective renewable electricity supply
- Solar gain achievable all-year-round

### Your industry

- Low noise welfare = happy neighbours
- Quality welfare improves image of construction and attracts a diverse workforce

### Your air quality

- NEW hybrid solar and LPG power system
- Minimal reliance on generator
- Super-low emission, no exhaust particulates

### Your welfare costs

- Improved energy performance
- Reduced running costs through increased solar power

## Specification

Unit size.....	9.75m x 2.7m (32ft x 9ft)
Operational area .....	11.44m x 4.09m (37.5ft x 13.5ft)
Height (Levelling legs closed) .....	2.6m
Weight .....	7 Tonnes
LPG .....	Max storage 4 x 47kg cylinders
Water capacity .....	400ltr main tank + 2 x 20ltr drinking water containers

Rate of energy conversion .....	66.31grams of LPG per kW/H (average)
Generator .....	5.8kVA LPG fuelled (0.8 power factor)
Water heater .....	LPG fuelled Oasis heater
Solar array.....	9 solar PV panels
Toilets.....	2 separate low-flush toilets
Additional equipment.....	Furniture, fire extinguisher, kettle, microwave oven and notice board

**BioLPG**  
COMING SOON!

Toilet/Drying Room

Canteen

so much more than just welfare...

## Useful points to remember

### Terms of hire

- Construction Plant-Hire Association Model Conditions – No other terms will be accepted without prior written agreement from Advanté.
- The EcoLogic400 Solar is non-mechanical plant.

### Daily checks

- The client is responsible for the required daily checks on the unit. This is normal practice with any mechanical plant.
- Any damage arising from failure to carry out the checks will be charged.

### Damage

- Damage and shortages will be charged to the client.

### Levelling

- The unit will be levelled upon delivery, and the client is responsible for maintaining the unit in a level position at all times. Failure to do so could result in engine damage.

### Permissible load on the unit

- Available power after appliances and services is 500 Watts for client use. Drawing or trying to draw more than this will damage the generator.

### LPG

- The client is responsible for changing the bottles as required; space is provided for the storage of up to two additional bottles if needed.

### Canteen electrical equipment

- The microwave and kettle with the unit will be delivered to site PAT tested.

### Water refills

- These are the client's responsibility, but can be arranged by Advanté if required. (Price on application.)

### Waste

- Only normal toilet waste must be put in the toilet. Any contamination of the waste could result in additional disposal charges for the client.

### Instruction Manual

- Full instructions on how to get the best from your unit and its operation can be found in the unit.

Clean electrical power from solar and stored energy. Next step: BioLPG heating

Impressive carbon reduction and energy efficiency

Reduction in running costs due to minimal reliance on generator
